PAPER PEOPLE

You want original artistic characters for your projects?

In Collaboration with LA SAPINERIE, we created PAPER PEOPLE for you.

PAPER PEOPLE were first crafted using FIMO CLAY! Then we took pictures of all the 108 small characters and make them ready for unity as PNG files. + We mixed the images with paper textures to give them a cool look!

All files are 512 px X 512 px / .png

We provide two versions of the PAPER PEOPLE:

1 - The Basic Characters (108 images)

2 - The Water Blob Versions (108 images). We applied a nice blue coloration on the bottom of the characters + an additional texture to give the Water blob effect.
